ROLYN C. DAGUIL, PhD
President
Caraga State University – Main Campus
Ampayon, Butuan City, Philippines

Dear Dr. Daguil:

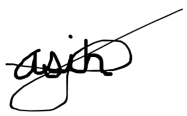

I am writing to apply for the position of **IT Support Specialist / IT Support Technician** at Caraga State University. I learned about this opportunity through the university's official Facebook page. As a Bachelor of Science in Information Technology graduate from Caraga State University, I am eager to apply my technical knowledge and practical experience to support the university's IT operations.

I graduated Cum Laude in 2029 and gained practical experience as a Student Intern / IT Intern at Caraga State University. During my internship, I assisted in troubleshooting computer hardware and software problems, installing and updating Windows software and applications, resolving LAN and Wi-Fi connection issues, and performing computer maintenance and system checks. These tasks helped me improve my technical skills, problem-solving abilities, and attention to detail.

I also completed training in Computer Hardware and Troubleshooting, Basic Networking and LAN Configuration, and Windows System Administration and Maintenance. In addition, my knowledge of database management, adaptability, and time management helps me approach technical tasks carefully and work well with others. I am willing to continue learning and improving my skills to keep up with new technologies and better support users with their technical concerns.

I would appreciate the opportunity to discuss how my qualifications and willingness to learn can contribute to your IT support team. Thank you for considering my application. I look forward to the opportunity to be part of Caraga State University.

Very respectfully yours,

ASIH KNCH M. PUDE
